Professional Summary:

As a front-end web developer, I excel at smoothly handling web tasks. I am proficient in many languages and adopt it very well, I focus on flawless execution and seamless functionality. Reliable and efficient, I thrive in fast-paced digital environments, ensuring a visually captivating user experience.

Professional Experience:

GatePass Coordinator/StoreKeeper | Elite Engineering | Aug 2024- Present

- **Managing Gate Pass Records:** Handle gate pass records for materials and personnel using Excel and SAP, ensuring accurate tracking of all movements.
- **Generating Reports and Documentation:** Create detailed reports and keep organized documentation to support efficient store operations.

Web Developer Intern | CodAlpha | June 2024 - October 2024

- Collaborated with a development team to create user-friendly web applications using HTML, CSS, and JavaScript.
- Designed and developed a fully functional to-do list web application that allowed users to add, edit, and remove tasks dynamically.
- Created a color generator tool that changes a div's color and displays the corresponding RGB code in real-time.
- Participated in code reviews, bug fixing, and continuous improvement of web applications to enhance user experience and performance.
- Contributed to Git repositories and effectively managed code versions to ensure seamless teamwork and project tracking.

Web Development Trainee | Encoderbytes | August 2023 - September 2023

- Gained hands-on experience in front-end development by building interactive websites and web components.
- Utilized HTML5, CSS3, and JavaScript to create responsive, mobile-first web designs.
- Learned best practices for optimizing website performance, accessibility, and SEO.
- Collaborated with peers to troubleshoot issues and refine design elements for improved usability.

WordPress Web Developer | Epak | September 2023 - October 2023

- **Portfolio Project:** Developed a professional portfolio website to showcase skills, projects, and achievements in web development, featuring responsive design and optimized performance.
- **TransCargoHub:** Built a functional website for TransCargoHub, focusing on providing logistics and cargo services information, with a clean layout, contact forms, and service details for user engagement.
- Delivered customized website solutions for small businesses, ensuring that their websites are visually appealing and user-friendly.
- Provided post-launch support, troubleshooting, and updates to ensure client satisfaction.
